The Ohio AgrAbility Project is part of a national program from the U.S. Department of Agriculture that assists farmers and other agricultural workers with disabilities by providing the resources and support they need to live independently, and to continue or return to working in production agriculture.

Please note that Ohio AgrAbility cannot purchase equipment or provide farmers with financial support. Staff may make referrals to available agricultural, vocational rehabilitation or community service organizations, some of which may be able to purchase equipment or provide financial assistance directly to farmers.
